WORK EXPERIENCE

6/2018 - 7/2020 **Software Engineer,**
Netware, Core banking Solution - Kolkata, India

- Developed responsive web pages in banking modules, which are utilized by over 110 co-operative banking institutions.
- Wrote code for dealing with large data collections by rendering components on the user interface to reduce http requests.
- Collaborated with 10+ team members to redesign the banking interface while effectively using Jira and agile methodology for delivering of high quality products.
- Played a key role in gathering requirements with product owner, designing prototype and developing React based components for the internal corporate management application from its inception to its deployment.
- Used Github as Code versioning tools.

Techstack Used

React	Javascript ES6	Redux	Axios	Typescript	Jquery
HTML	CSS	Bootstrap	Git-hub	JIRA	Apis
Adobe XD	Adobe Photoshop	Laravel / PHP	PostgreSQL		

6/2017 - 5/2018 **Web Designer**
Kerala - India

- Worked together to develop websites from the conceptual stages of graphic design to the final hand-off.
- Demonstrate and defend designs and key deliverable to peers.
- Performed updates for the existing websites using Html5, Bootstrap, css3 and Adobe Photoshop.
- Proficient in meticulously translating prototype designs into functional HTML pages with precision and adherence.
